[GitHub] Please verify your device

Hey Icaro Magalhaes!

Sign in attempt requires further verification because we did not recognize your unrecognized device.

Device: Chrome on Windows  
Verification code: 795332

If you did not attempt to sign in to your account, your password may be compromised. Use a strong password for your GitHub account.

If you'd like to automatically verify devices in the future, consider enabling two-factor authentication on your account. Visit <https://docs.github.com/articles/configuring-two-factor-authentication> to learn about two-factor authentication.

If you decide to enable two-factor authentication, ensure you retain access to one or more account recovery methods. See <https://docs.github.com/articles/configuring-two-factor-authentication-recovery-methods> in the GitHub Help.

Thanks,
